**Social Actions,
Policy Briefing and
Knowledge Exchange**

Social Actions in Europe

From March to August, each partner had the opportunity to implement locally what was learned in [Vilnius about co-creating social actions.](#)

Therefore, in the past months, groups of young people across the partners' country designed, co-created and carried out various types of social actions. Each social action aimed to answer a specific need of the local community's young people.

Community reporting & Policy Reform

During the past months, partners have interviewed local decision makers and EU level policy makers about current policies regarding young people's wellbeing. Click [here](#) to consult our Insight report! In July all partners met in Palermo for the **2-days training "Transnational Policy Workshop"**.

The training, led by the People's Voice Media and hosted by Per Esemplio Onlus, was designed to learn how to exchange knowledge with the community about what came out of the previous interviews and write policy briefings through participatory learning activities; it involved youth workers and young people from Italy, Portugal, Hungary, Germany, Lithuania, Denmark and England.

Knowledge Exchange events at local and European level

The training helped us to get ready to organise local knowledge exchange events in the communities of each partner country. The goal of such local events is to come together, young people, youth workers and key stakeholders to discover the learnings of the project so far, to share the experiences of the youth-led social actions, and to develop policy recommendations to benefit the wellbeing of young people.

! Upcoming event !

“Young People in the Post-COVID Landscape: A pan-European knowledge exchange”

A Pan-European Knowledge Exchange Event will take place online on Monday 14th of November. **Join us in creating an equitable space in which ideas for European-level policies and their practical implementation can be co-produced.**
